"The Honorable Governor John Connolly
Executive Mansion
Austin, Texas

"Dear Governor Connolly:

"I sincerely am not just an emotional grandmother of fifty-three years, I have been listening to a radio program from New York this evening. It comes over WNBC, 630 on dial begins at 7:45 P.M. Monday thru Friday and runs thru 12:00 midnight. It is the Brad Crandall program people call in to him and they talk about any and everything, but it is usually centered on the states of the South.

"My fear for the people of the South and all America is not unfounded. One man called in on this program tonight and even suggested getting a crowd together and going down to Mississippi and this would be the spark that would set off the revolution that John Kennedy, Johnson, the Roman Catholics (hierarchy), the pope, and the Communists have planned since 1960.

"Kennedy and Johnson have been disarming our country, bankrupting, giving our tax money to Roman Catholic-Communists countries to build up their war arms, using our tax money by the millions to set-up so-called Peace Corps that are nothing more than gangsters and murders trained on honest American money and sent out all over the world to murder and start the wars and now they have come up with the obnoxious Poverty Bill to set-up Hitler Youth Camps and train our innocent youth as hardended killers and prostitutes.

"They carried out a well planned scheme and slandered Dallas, Texas to begin with about six months ago. John Kennedy is no more dead than I am. I haven't read that any one admitted seeing the corps .

"America is furious that Congress turns over our money to set up art centers and memorials to that obnoxious devil traitor. Now Johnson has come up with a bill for more millions of our money to remake Pennsylvania Avenue, and it will be a second Rome, Italy. This same thing was tried when Abraham Lincoln was President and he refused to let the Roman Catholic devil in Rome plan and set up his obnoxious FALSE IDOLS.

"Johnson is either deliberatly being forced, at least he is rushing us into an American Police state and overthrow of our government. It has to be accomplished this Summer for they know this is their only opportunity and I sincerely believe that they are inciting a revolution in Mississippi to take our minds off of New York and Canada, and then move in from the North.

"Just a few days ago they had stirred up murders, bombings, thefts, rapes, etc. in Quebec and went so far as to say they might disolve relations with Canada and merge with the United States. It isn't a coincidence that Quebec is approximately 100% Roman Catholic their plan to merge would easily fit in and fortify our Northern Shores as an aid and encirclement to benefit the Roman Catholic plans from New York, Europe, South America, Mexico, Panama, etc. and the rope could be squeezed around our necks before we know what has happened. They are centering the trouble on the South for a reason.

"If you will refer to the second election of Mr. Lincoln of 1864 you will find that this today is a duplication and the third try to overthrow our government. <u>I don't think for a moment either that suddenly we have been having almost daily all Roman Catholic Heads of Foreign Governments making a path to our White House within the last month</u>. We are dealing with professional gangsters and they could be checking on their joint plans for the invasion of America.

"Our only hope is for the Southern and Border Congressmen to take immediate action and place that whole nest of Nazis around the President under armed guard and if the President Johnson is willingly joined with them, include him and then appoint a President until November.

"If they don't the American Legion that have risked their lives should walk in and over throw the whole outfit or we are being forced into a revolution by the Roman Catholics and we are standing by and permitting it to happen.

"We know the Roman Catholic hierarchy are murders, they have murdered three of our Presidents and tried to murder two others, what are our officials waiting for? I am hoping you Southern Governors and our Southern Congressmen will ignore any further foolishness and take action, you folks are our only hope. Your forefathers and mine gave their blood and lives for America, not Roman Catholics.

"All America is ready to explode, one lady said over the New York program tonight that 1,000,000 people were to march on Washington the 4th of July against the Civil Rights Bill, another called in that every Senator and Congressmen voting for the Bill would be defeated in November.

"The Northern Left Wing Congressmen have gone too far in aiding Johnson and the Catholics in destroying our Constitution and destroying our Freedoms, the people have had it. I wanted you Southern Governors and Southern Congressmen to know what I had heard for I believe the only thing that will stop the revolution will be an American Legion armed guard around the White House and Nazis running our government.

"Very Sincerely,

"~~EDNA K. SHAFFER~~ /s/
